

Long-term collaborations in low- and middle-income countries

Map of the 101 LMICs (shaded in dark grey) with which IARC collaborates, based on analyses of joint publications and current projects for the period from January 2016 to June 2019. The size of the circles represents the number of collaborations (joint publications and current projects) between IARC and all organizations in each LMIC. LMICs with which IARC had no collaborations during this period are shown in light grey. High-income countries are shown in light grey with cross-hatching. Data visualization created using Flourish* (<https://flourish.studio/>).
